

Friends and business partners,

Our annual event, Sip & Savor, a benefit for Multiple Sclerosis research will be held on November 7, 2024 from 6:00pm-9:00pm. The event will feature a variety of wines, as well as incredible food provided and presented by the Pellissippi Culinary School that our supporters can enjoy while exploring the beautiful, historic Boyd Harvey House. Tickets to the event are \$100 each and multiple opportunities to sponsor and support exist.

Donations:

We are requesting donations for our silent auction as well as donations of wine: mixed cases from the same vineyard; all red, all white, or a mix of the two would be ideal, but any donation, big or small, is welcomed.

Sponsorship:

**Pinot Noir sponsor** - \$5,000

-8 tickets, private table, weather permitting, opportunity to speak, logo on all printed and digital items. Access to private tasting station

**Cabernet sponsor** - \$2,500

-6 tickets, logo on all printed and digital media. Access to private tasting station

**Chardonnay sponsor** - \$1,000

-4 tickets, logo featured throughout event space

What is Multiple Sclerosis?

Multiple Sclerosis is a condition where the immune system attacks the brain and spinal cord causing problems with vision, balance and muscle control. MS affects nearly 1 million people in the US and everyone's experience with MS is different and could be temporary or permanent. There is no known cause and there is no cure, but there are treatments that may help manage the disease and researchers continue working towards a cure.

About Race To Erase MS:

Funding research is the core focus of the Foundation and all funds raised support our Center Without Walls program, a selected network of the nation's top MS research centers.

This nationwide collaboration of physicians and scientists is on the cutting edge of innovative research programs, working as a team on therapeutic approaches to eradicate MS.

In addition to combating MS through research in a clinical environment, we hope to increase awareness by educating the public about this mystifying disease.
